RESNET Policy 024

Effective Dates on Standard Amendments and Interpretations

Amended by the RESNET Board of Directors June 16, 2016

All proposed amendments and formal interpretations shall contain effective dates for each of the provisions of the amendment or interpretation. RESNET staff is directed to return proposed standards amendments and interpretations to the proposing party if they do not include appropriate effective dates. The period of the time before an amendment or interpretation becomes effective is likely to vary with the nature of the interpretation or amendment. In no case, however, will the period of time be less than thirty (30) days from official approval of the interpretation or amendment. Interim Amendments adopted by the RESNET Standards Management Board (SMB) are exempted from the requirement and shall go into effect immediately after adoption by the SMB.
